Light on his airy crest his slender head,
His body short, his loins luxuriant spread;
Muscle on muscle knots his brawny breas;
No fear alarms him, no vain shouls molest;
O'er his high shoulder, floating full and fair,
Sweeps his thick mane and spreads his pomp of hair;
Swift works his double spine, and earth around
Rings to his solid hoof that wears the ground—(Vizout.

VENTURE.

This well-known Trotting Stallion is now standing at the corner of Punchbowl and Queen strests, and breeders, horsemen and stock-owners should take advantage of the opportunity to obtain his blood while they have the chance. He is now looking and feeling nearly as well as he ever did in his life, and moves as live and his eye is as bright and he is as vigorous as a four-year-old horse.

It does not require a great horseman to discover great points of excellence in VENTURE. The ordinary citizen, upon beholding him, will be impressed immediately with his grand make-up, magnificent length, and elegant finish. If he is not the greatest horse that ever came to this country, he is surely one of the greatest, and as a turf performer, he towers as far above them all as he does above a sucking colt in statue. A great deal of importance has lately been attached to the value of a horse that is being kept for stock purposes, whether he is standard or not, and the President of the National Association of Trotting Horse Bredders in America strongly advises people not to patronize stallions that are not standard bred, and he also advises them to select one not only standard bred, but if possible one that is standard by his own performance, which is a public record of 2:30, or better, and even more than this by the performance of his get also. Now, if this rule was rigidly applied it would exclude all such great horses as Elictioneer and the sires of Mand S. and Jay Eye See, etc., for while they have become greatly renowned by the performance of their get, they never were turf performers themselves.

Now, we will see, for curiosity, how near VENTURE comes to powersing these three qualifications nely: Breeding, performances and performances of his get.

As to breeding, he is the peer of any horse on earth, and I don't except the great Hermit, who is the most ular stallion in England, and whose service fee is £500, he being the sire of three Derby winners. As to his own performances, he meets the requirements, having a public record of 2:23%-2:30 being the

His get are now just beginning to be appreciated in California, one of which (Veng anco) won a good race quite lately in Sacramento, in straight heats, making a record of 2:34, and is said to be able to trot close to 2:30, when called upon to do so.

With these facts before us, VENTURE from up as one of the greatest horses, not only in this but in any other country, and the day is past when people will breed anything but the very best; and while the death of two such great horses as Boswell and Bazaar is greatly deplored by all true horsemen, still it is a great consolation that there is so good a horse as VENTURE to fill their place.
